

Société Hydrotechnique de France

SHF objectives

- SHF stimulates and promotes knowledge and know-how in all the fields relating to **water resources and hydrotechnical sciences**
- SHF brings together industrial and research groups, engineering firms and laboratories, public institutions and local authorities, as well as individual members.

SHF organization

4 thematic divisions:

Hydrosystems and
Water Resource

Hydraulic Facilities
and Environment

Hydrotechnology
and Fluid
Mechanics

Water Sciences

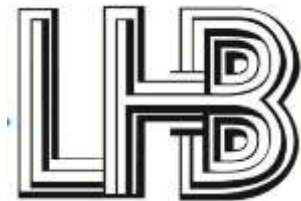

Microfluidics

SHF activities

- Organization of congresses, specialty conferences, workshops, working groups on important topical issues
- Publication of *La Houille Blanche* journal
 - International Journal on Water
 - Subscribers: industrial and academic scientists, engineers

SHF members

More than 600 members and partners

- Individuals
- Corporate members
- Researchers, Academics, Industrials, engineers...

SHF Awards

4 prizes each year:

- Grand prix d'hydrotechnique (career in one of SHF domains)
- Henri Milon Awards (Thesis in Hydrology)
- Pierre Massé Awards (Thesis in Human science related to water)
- **Jean Valembois Award** (Thesis in Fluid Mechanics): *apply before December 31th each year!*

Forthcoming SHF events

2018

- Desalination and Climat change (*Marseille, June 7, 2018*)
- Dispersed two-phase flows (*Toulouse, September 2018*)
- Floods forecastings (hydro-meteorology), and floods crisis management (*Avignon, October 2018*)

Forthcoming SHF events

2019

- What is the future of hydropower in Europe? (*Grenoble, January 2019*)
- Monitoring and control in urban hydraulics (*SHF-ASTEE, Paris, Feb. 2019*)
- SimHydro (*Nice, June 2019*)
- Advances in Extreme Value Analysis and application to Natural Hazard (EVAN) (*Paris, September 2019*)
- Coastal infrastructures and climate change (*Paris, Nov. 2019*)
- Hydraulic machines and cavitation, (*Sion, 2019*)
- Drought and low-flows (*Paris, Fall 2019*)
