* Presentations either as part of the conference or technical session and only if accepted based on review process as is in place for the conference. It will not be allowed to present specific products or services: this is a scientific conference so the input should be free of commercialism, nevertheless industry research that shows e.g. the benefits of certain solution directions are allowed.

** Free registration will be on your companyname. It is possible to change/rotate people during the conference.

Please write to the conference organizers (colin@insa-toulouse.fr, rond@insa-toulouse.fr) to express your interest in sponsoring the NEGF26 conference.

Any contribution towards our conference would be greatly received.
